Proposed Barcode for Brands

Brands

GS1 Application Identifier	Extension Digit	GS1 Company Code	Sequence Number	Check digit
(00)	1	9 digits (zero filler suffix if required)	7-digit number incremental	N

Introduce the standard SSCC label, please refer to GS1 documentation <https://www.gs1-128.info/sscc-18/>

Sample barcode with dimension
Barcode should be standard Code 128

C&C Sample Label with Barcode explained

The barcode data must be 18 digits send in SSCC Barcode field on the ASN to DSCO, and same 18 digits should be returned when the barcode is scanned.

The (00) in the text below barcode signifies it is an SSCC, printed as standard
