Required Fields by Workflow – Zappos

Introduction

The following are the various fields that Zappos requires in order to onboard and send data through Rithum's platform.

These are the fields required by Zappos for you to create any of this data within Rithum's platform. Note that these are fields required by Zappos and may or may not overlap with Rithum's required fields.

These Required Fields pertain to all import methods (i.e. EDI File, CSV file, XLS file, etc.).
