Item Management Application- Attribute Definitions

Table of Contents

To find a specific attribute click **Ctrl + F** and enter the name of the attribute.

Core Attributes and Definitions

Note: Most Core attributes can be edited, prior to business awarding, on the Enrich page with the Awaiting Business Awarding radio button selected.

When attributes are not editable, please reach out to your Onboarding & Maintenance Analyst or submit a ticket in the Vendor Gateway to have it updated.

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Availability Start Date (Earliest Ship Date)	Date for when the product is first available for sale in any channel.	Yes, but not once business is awarded.	Fulfillment
Able to be ordered as a Special Order?	A product that the customer wishes to purchase, but Lowe's doesn't have inventory available on hand and needs to fulfill from the vendor inventory. Identifies if the item is available to be ordered through a Special-Order transaction that is typically performed when a customer wants to purchase an item that is not currently available in the store.	Yes, but not once business is awarded.	Fulfillment
Available Hierarchies	Vendors should select all the packaging hierarchies (each, case, pallet, etc.) for which they have a value, this will be used to run validations and make sure they've updated the correct/relevant data.	Yes	Packaging Hierarchy & Barcodes (only on the core template)

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Consumer Unit Indicator	Indicates the lowest consumable unit that Lowe's sells in retail channels. May differ from the vendor provided lowest consumable unit for Lowe's purchase.	Yes	Packaging Hierarchy & Barcodes
Container Qty 53ft	The full truckload quantity (53' trailer) for the item. Conditionally required based on sales channel and available hierarchies.	Yes	Fulfillment
Contains Wood Indicator	Identifies the trade item as containing wood.	Yes	Core
Country of Origin	The country in which the goods have been produced or manufactured. Please check the reference data tab for complete list of values.	Yes	Core
Customer Minimum Order Quantity	The lowest orderable quantity for fulfillment of an item flagged as special order. Conditionally required based on available packaging hierarchies and Available for Direct-to-Consumer = Yes	Yes	Fulfillment
Customer Multiple Order Quantity	The order multiple quantity for fulfillment of an item flagged as special order. Conditionally required based on available packaging hierarchies and Available for Direct-to-Consumer = Yes	Yes	Fulfillment
Customer Order Lead Time	Customer order lead time is an integer that states the lead time required for special orders. Conditionally required based on available packaging hierarchies and Available for Direct-to- Consumer = Yes.	Yes	Yes
Customer Order Lead Time UOM	Unit of measure used to identify the customer order lead time.	Yes	Fulfillment

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Dimensions UOM	Unit of Measure associated with dimension values.	Yes	Packaging Hierarchy & Barcodes
Direct to Consumer Item Cost	Base cost (no freight costs included) of item to Lowe's (i.e. Collect Cost). Conditionally required if the product is available for direct-to-consumer shipping and selling channel: online.	Yes, but not once business is awarded.	Pricing
Distribution Center (DC) Prepaid Consignment Flatbed Distribution Center (FDC) only	The cost of an item, including freight costs, when shipped to the Flatbed Distribution Center (FDC) with a pre-paid freight term (using Vendor freight accounts). Conditionally required if the product will be shipping to the FDC based on the selling channel: store.	Yes, but not once business is awarded.	Pricing
Distribution Center (DC) Collect Cost	The base cost (no freight costs included) of an item when shipped to a Regional Distribution Center (RDC) using a collect freight term (using Lowe's freight accounts). Conditionally required based on the available selling channel: store.	Yes, but not once business is awarded.	Pricing
Distribution Center (DC) Prepaid Cost	The cost of an item, including freight costs, when shipped to the Regional Distribution Centers (RDC's) with a pre-paid freight term (using Vendor freight accounts). Conditionally required based on the selling channel: store.	Yes, but not once business is awarded.	Pricing
Does Item have any Legal Selling, Age, or Shipping Restrictions?	Indicate if item contains any legal/compliance related shipping or selling restrictions. If yes, additional details will be required during the setup process on the Enrich page Pending Restrictions tile.	Yes, but not once business is awarded.	Fulfillment

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Does this item ship in multiple boxes?	Used to determine if a single item ships in more than one single box. Example: A twelve-foot artificial Christmas tree that ships in two boxes.	Yes	Fulfillment
DOT Hazardous Goods Number	United States Department of Transportation's Office of Hazardous Material Safety Identification Number identifying the type of dangerous goods being shipped. If not applicable, please indicate '0'.	Yes	Fulfillment
Effective End Date	The date by which the specific packaging hierarchy becomes invalid/discontinued.	Yes	Packaging Hierarchy & Barcodes
Freight Cost	Vendor's cost to ship item direct to consumer from the Vendor using the Vendor's freight accounts.	Yes, but not once business is awarded.	Pricing
Gross Weight	The weight of the item including all packaging materials.	Yes	Packaging Hierarchy & Barcodes
Hazmat Type	If item is considered to have a Hazmat code, what type of product group does it fall into? Note: If a value other than "none" is selected, additional details will be required	Yes	Fulfillment
Height	Dimension based on selected packaging hierarchy. This will be provided for each level of the hierarchy selected.	Yes	Packaging Hierarchy & Barcodes
Home Office Vendor Business Unit (VBU)	This value comes from the Account Details set up within the Lowe's Vendor Gateway.	No	Header on Core Template Only
Home Office Vendor Name	This value comes from the Account Details set up within the Lowe's Vendor Gateway.	No	Header on Core Template Only

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Initial Lead Time	The time it takes (in days) for vendor to fill the initial order(s) once a PO has been received.	Yes	Fulfillment
Initial Lead Time UOM	Unit of Measure for Initial Order Lead Time value.	Yes	Fulfillment
In-Package Depth	The measurement from front to back of the item in it's packaging. Follow EAN.UCC Package Measurement Rules for Data Alignment. These are standards for measuring dimensions of the trade item. Required for collection at each packaging hierarchy level (example, in-package height for every available hierarchy: each, innerpack, master carton, pallet)	Yes	Packaging Hierarchy & Barcodes
In-Package Height	The measurement of the height of the item in its packaging. The vertical dimension from the lowest extremity to the highest extremity, including packaging. At a pallet level the trade item Height will include the height of the pallet itself. Required for collection at each packaging hierarchy level (example, in-package height for every available hierarchy: each, innerpack, master carton, pallet)	Yes	Packaging Hierarchy & Barcodes
In-Package Width	The measurement from left to right of the item in its packaging. Follow EAN.UCC Package Measurement Rules for Data Alignment. These are standards for measuring dimensions of the trade item. Required for collection at each packaging hierarchy level (example, in-package width for every available hierarchy: each, innerpack, master carton, pallet)	Yes	Packaging Hierarchy & Barcodes

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Is product Nested?	Does the item ship nested within itself?	Yes	Fulfillment
Is this item a Pro item?	Is this item considered a Pro (Professional) item that will be used by a Pro in addition to DIY (Do It Yourself) customers?	No	Core
Item Description	Lowe's internally used item description usually provided by the merchant at item setup time. This legacy field is 33 characters and is what prints on Bin/Beam labels in stores. This is NOT the same as the Product Description and is not used Online.	Yes, but not once business is awarded.	Core
Item Disclaimer	Disclaimer that appears adjacent to the image on Lowes.com; can identify scenarios such as "accessories not included" in lifestyle photos.	Yes	Core
Like Lowe's Item Number If Available	A like or similar Lowe's item number with similar sales expectations that can be viewed as a comparison to item being introduced.	Yes	Fulfillment
Like Product URL 1	Link to same or similar product for comparison purposes during the buying decision. Should be similar product if exact match is not available.	Yes	Core
Like Product URL 2	Link to same or similar product for comparison purposes during the buying decision. Should be similar product if exact match is not available.	Yes	Core
Like Product URL 3	Link to same or similar product for comparison purposes during the buying decision. Should be similar product if exact match is not available.	Yes	Core

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
MSDS Number	Manufacturer's identification number for the material safety data sheet for a trade item level. This is a data sheet with the most important characteristics, protected measures and regulations to be adhered to when handling this trade item. It is relevant above all for dangerous substances	Yes	Fulfillment
Multiple Ship from Points	Does this vendor have the ability to support multiple ship points?	Yes	Fulfillment
Net Content	The amount of the trade item level contained by a package, as claimed on the label. Required on consumer units only. For example, the value to put in this field for a 12 ounce can of cola is '12'.	Yes	Packaging Hierarchy & Barcodes
Net Content UOM	Measurement used to identify the net content.	Yes	Packaging Hierarchy & Barcodes
Net Weight	The net weight of the item, without its packaging. Conditionally required if "Does this item ship to Lowe's domestic or import" = import	Yes	Packaging Hierarchy & Barcodes
Number of Boxes	Used to determine how many boxes are used to ship a single item. Example: A twelve-foot artificial Christmas tree that ships in two boxes.	Yes	Fulfillment
Order Unit of Measure	The measurement unit used for ordering the trade item level such as each, pair, case, roll, set box, etc.	Yes	Packaging Hierarchy & Barcodes
Orderable Unit	Indicates that the item is orderable by the demand side trading partner.	Yes	Packaging Hierarchy & Barcodes

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Packaging Hierarchy Type	A packaging hierarchy includes the lowest level of product (each), the highest level applicable to that product (case or pallet) and any other appropriate interim levels (inner pack, case). This information travels as a 'set' in the data synchronization process and establishes the relationship between eaches, packs, cases, and pallets. This is entered at the low-level during item setup to identify the product you are actively working on.	No	Packaging Hierarchy & Barcodes
Packaging Type	The code identifying the type of package used as a container of the trade item level. Please use the Reference Tab on the Core Template for acceptable values.	Yes	Packaging Hierarchy & Barcodes
Pallet Type (Full, Half, Quarter)	Indicator for what type of pallet will be used. Conditionally required based on available packaging hierarchies.	Yes (when there is more than an each level)	Packaging Hierarchy & Barcodes
Product Description	This is the description of the product being sold via the ONLINE sales channel. A descriptive title will drive Search Engine Optimization value on your product. Character limit for the field is 100 characters.	Yes, but not once business is awarded.	Core
Readiness Score	Score based on completeness of item data within the template. Must be at 100% before uploading to ensure success. Please note, additional validations are run on data once uploaded and additional errors may be located at that time.	No	Core (on Core template only)

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Replenishment Maximum Quantity	Represents an agreed-to maximum quantity of the trade item that can be ordered. Example would be new item introductions or seasonal products where manufacturer sets limits on quantity a retailer can order. Conditionally required based on available packaging hierarchies.	Yes	Packaging Hierarchy & Barcodes
Replenishment Minimum Quantity	Represents an agreed to minimum quantity of the trade item that can be ordered. A number or a count. This applies to each individual order. Can be a fixed amount for all customers in a target market. Conditionally required based on available packaging hierarchies.	Yes	Packaging Hierarchy & Barcodes
Replenishment Multiple Quantity	The order quantity multiples in which the trade item may be ordered. If the Order Quantity minimum is 100, and the Order Quantity Multiple is 20, then the trade item can only be ordered in quantities of which are divisible by the Order Quantity Multiple of 20, in this example = 100x20. Conditionally required based on available packaging hierarchies.	Yes	Packaging Hierarchy & Barcodes
Required Rotation in Days – Flatbed Distribution Center (FDC) Product	First in first out window for FDC – Maximum number of days the product is allowed to be at the FDC. Items are stored outside, what is the maximum number of days it can sit at FDC. This may vary by FDC.	Yes, but not once business is awarded.	Fulfillment
Selling Country	This is the country where the product is sold (USA or CAN).	Yes, but not once business is awarded.	Core

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Selling Unit of Measure	The measurement unit used to sell the trade item level such as each, pair, case, roll, set box, etc. A trade item may have only one Selling Unit of Measure. However, a trade item may be ordered by one unit of measure and sold by another (i.e. order as a case but sold individually or at the each level).	Yes, but not once business is awarded.	Fulfillment
Ship from VBU Number	The unique vendor identifier number associated with the shipping location for the product. May or may not be the same as the Home Office VBU.	Yes	Fulfillment
Shipment Type (Floor Loaded, Palletized)	How is the product loaded into containers for shipment. Conditionally required based on available packaging hierarchies.	Yes	Fulfillment
Squeeze Clamp Safe Indicator	Can this item be moved with a squeeze clamp Y/N?	Yes	Fulfillment
Store Direct Collect Cost	The base cost (no freight costs included) of an item when shipped directly to a Lowe's store with a collect freight term (using Lowe's freight accounts).. Conditionally required based on the selling channel: store.	Yes, but not once business is awarded.	Pricing
Store Direct Prepaid Cost	The cost of an item, including freight costs, when shipped directly to a Lowe's store with a pre-paid freight term (using Vendor freight accounts). Conditionally required based on the selling channel: store.	Yes, but not once business is awarded.	Pricing
Sub Brand	Supplemental or secondary brand or series name, often used in left navigation on the website.	Yes, but not once business is awarded.	Core

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Supplier Bullet 1	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters.	Yes	Enrichment
Supplier Bullet 2	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters.	Yes	Enrichment
Supplier Bullet 3	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters.	Yes	Enrichment
Total Quantity of Layers per Trade Item	The number of layers that a pallet contains. Only used if the pallet has no GTIN. It indicates the number of layers that a pallet contains, according to supplier or retailer preferences. Required for shipping units such as pallets when pallets are not GTIN marked.	Yes	Packaging Hierarchy & Barcodes
Total Quantity of Trade Items per Layer	Number of items contained in a complete layer of a higher packaging configuration. Used in hierarchical packaging structure of a trade item. Cannot be used for trade item base unit (only applies to logistics units).	Yes (when there is more than an each level)	Packaging Hierarchy & Barcodes
Universal Price Policy	The retail price required at all times if an accepted and submitted Universal Pricing Policy applies.	Yes, but not once business is awarded.	Pricing
Vendor Item Setup Contact Email	The correct email details for any questions about this item creation submission.	No	Header (only on Core template)
Vendor Item Setup Contact name	The correct contact name details for any questions about this item creation submission.	Yes	Header (only on Core template)

File Name: Item Management Application Attribute Definitions_1Pv13
Repository Location: IMA & Knowledge Center

8/15/2024

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Vendor Item Setup Contact Phone Number	The correct phone number details for any questions about this item creation submission.	No	Header (only on Core template)
Vendor Minimum Order Multiple	Minimum quantity allowed to be ordered for a particular item level.	Yes	Fulfillment
Vendor Processing Time	Length of time it takes in business days for a vendor to process the order from the time the order was placed by the customer to the time it ships from the vendors dock/warehouse.	Yes	Fulfillment
Vendor Processing Time UOM	Measurement unit used to identify the vendor processing time.	Yes	Fulfillment
Weight UOM	Unit of Measure associated with weight values.	Yes	Packaging Hierarchy & Barcodes
Width	Dimension based on selected packaging hierarchy. This will be provided for each level of the hierarchy selected.	Yes	Packaging Hierarchy & Barcodes
Will Lowe's Global Sourcing be the importer of record for this item?	Identifies if Lowe's will be the importer of record for the item (direct import).	Yes, but not once business is awarded.	Core
Will this item ship to Lowe's Domestic or Import?	Indicates if the item is shipped to Lowe's domestically or imported by Lowe's as the importer of record.	Yes, but not once business is awarded.	Core

Asset Assignment Template Attributes and Definitions

Attribute Name	Attribute Description	Editable by Vendor
CA Residents: Prop 65 Warning(s)	This should be the file name of the PDF document that outlines any Prop 65 Warnings for your item. This will need to be uploaded as a digital asset.	Yes
Front Facing Image	The primary image file name that represents the front facing view of the product.	Yes
MAP Policy Document	This should be the file name of the PDF document that consolidates your MAP document and pricing lists. This will need to be uploaded as a digital asset.	Yes

Enrichment Attributes and Definitions

Note: Enrichment attributes can only be populated once business is awarded. To edit enrichment attributes from the Enrich page select the Business Awarded radio button.

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Are PFAS Chemicals Intentionally Added to the product or component?	Were PFAS intentionally added to the Product?	Yes	Enrichment
Availability End Date	The date in which a specific item is unavailable for a certain time. This is not the end-of-life indicator for an item.	Yes	Enrichment

File Name: Item Management Application Attribute Definitions_1Pv13
Repository Location: IMA & Knowledge Center

8/15/2024

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Bulk Indicator	Indicator that a specific item has a bulk offering (i.e. mulch sold by the bag, but also offered by the truck load)	No	Enrichment
Description of 'Other' PFAS Purpose	Purpose of Use of PFAS in any Product Component.	Yes	Enrichment
Does the item have an Anti-tip Device?	This attribute defines the existence of an anchor on an item for the customer promise team. If no such anchor is on the item, delivery may include a customer waiver in the delivery/loading document.	Yes	Enrichment
Does This Item potentially Contain a Conflict Mineral (Tin, Tungsten, Tantalum or Gold)?	"Conflict minerals," as defined by the US legislation, currently include the metals tantalum, tin, tungsten, and gold, which are the extracts of the minerals cassiterite, columbite-tantalite and wolframite, respectively.	Yes	Enrichment
Enter the Exact Qty (PPM) of each PFAS Listed in declaration OR Enter Total Organic	Enter the exact quantity (Qty) (PPM-parts per million) of each PFAS listed in declaration of PFAS description/Chemical Abstracts Service (CAS) **OR** Enter Total Organic Fluorine Qty (PPM).	Yes	Enrichment

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Fluorine Qty (PPM)			
File Certification Number	This attribute is dependent on the Safety Listing from the Lowe's Quality Assurance team.	Yes	Enrichment (on enrichment template only)
Item Disclaimer	Disclaimer is also known as image disclaimer. This is vendor provided and lives on the Product Display Page below the image carousel. Messaging such as "In use images - materials not included".	Yes	Enrichment
List the Chemical Abstracts Service (CAS) Number or Description for all PFAS Included (# form with dashes; Ex: 1763-23-1)	Provide a list of all the Chemical Abstracts Service (CAS) Number(s) for all PFAS(s) Included (# form with dashes; Ex: 1763-23-1).	Yes	Enrichment
Marketing Copy	Descriptive selling copy that highlights the features and benefits of your product. Limited to 1000 characters and no external links included.	Yes	Enrichment

Attribute Name	Attribute Definition	Editable by Vendor	Stepper
Purpose of Use of PFAS in any Product Component	Purpose of Use of PFAS (per- and polyfluoroalkyl substances) in any Product Component.	Yes	Enrichment
Supplier Bullet 4	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters and no special characters.	Yes	Enrichment
Supplier Bullet 5	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters and no special characters.	Yes	Enrichment
Supplier Bullet 6	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters and no special characters.	Yes	Enrichment
Supplier Bullet 7	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters and no special characters.	Yes	Enrichment
Supplier Bullet 8	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254 characters and no special characters.	Yes	Enrichment
Supplier Bullet 9	Descriptive selling copy that highlights the features and benefits of your product. Limited to 254	Yes	Enrichment
