

PACKING SLIP GUIDE – Zulily

Introduction

Packing slips can be downloaded from the platform. If you prefer to create your own packing slips, this document provides instructions for replicating packing slips for Zulily. Please match the packing slip design requirements as closely as possible.

Once you have created your packing slips, please submit samples to Zulily for approval. Your packing slips must be approved by Zulily before you can use them.

If you have any questions, contact Zulily directly or [contact Rithum Software Support](#).

Packing Slip Specifications

The table in this section contains the packing slip specifications. Elements are identified as either *fixed (F)* or *variable (V)*. Fixed elements are elements that remain the same regardless of any data received, i.e., static text. Variable elements contain changeable data as received from the order. The following packing slip sample includes location references to identify which sections of the sample are being addressed.

The image shows a sample packing slip for Zulily. It includes the Zulily logo, order details, a 'Ship to' section, and a merchandise table. Three purple boxes highlight specific sections: 'Order Header Section', 'Ship To Section', and 'Order Merchandise Table'.

Order Header Section

Created: 2025-05-05 14:30:58 MST
